Ability to attract and retain quality help as you will only be as good as your valued employees. Skills to multi-task all aspects of business, finance, marketing, hiring, contracts, etc. — expertise must be varied. business concepts. Earning the trust and confidence of your clients and employees placing a premium value on high morale and fair and equitable treatment. Avoiding office politics and bureaucratic/unproductive behavior. Competitive desire to win! Luck, all of the above is important, but good luck always helps. Supportive family — that’s really No. 1!
